

## NIBE SPLIT indoor module NIBE SPLIT BA-SVM 10-200

The NIBE SPLIT BA-SVM is a compact indoor module suitable for air to water split systems. The outdoor module AMS is connected with refrigerant pipes to the NIBE SPLIT BA-SVM. The NIBE SPLIT BA-SVM provides optimum savings since the heat pump automatically adjusts to the property's output requirements all year round.

The NIBE SPLIT BA-SVM works down to an outdoor temperature of  $-20^{\circ}\text{C}$  and supplies up to  $58^{\circ}\text{C}$  in supply line temperature. The effective cooling function allows the heat pump to deliver a comfortable indoor climate even at high outdoor temperatures.

Thanks to smart technology, the product gives you control over your energy consumption and will be a key part of your connected home. The efficient control system automatically adjusts the indoor climate for maximum comfort, and you do nature a favour at the same time.

- **Combine NIBE SPLIT BA-SVM with a NIBE SPLIT heat pump for an energy-efficient climate system.**
- **High capacity even down to  $-20^{\circ}\text{C}$  and well-developed cooling function.**
- **Part of your smart home – Control your comfort online using NIBE Uplink.**

<sup>1)</sup> Scale for the system's efficiency class room heating: A+++ - D. Reported efficiency for the system also takes the temperature regulator into account. If the system is supplemented with an external additional boiler or solar heating the total efficiency of the system must be recalculated. <sup>2)</sup> Scale for the product's efficiency class room heating: A+++ - G. <sup>3)</sup> Scale for efficiency class hot water: A+ - F.

## Sustainable energy solutions

Since 1952, NIBE has been manufacturing energy-efficient and sustainable climate solutions for your home. It all started in Markaryd in Sweden and we value our Nordic heritage by harnessing the power of nature. We combine renewable energy with smart technology in order to offer effective solutions so that together we can build a more sustainable future.

Whether it's a chilly winter's day or a hot summer's afternoon, we need a well-balanced indoor climate for a comfortable everyday life, whatever the weather. Our wide range of products supplies your home with cooling, heating, ventilation and hot water, so that you can create a pleasant indoor climate with a low impact on nature.
