# Water heater NIBE Eminent

The NIBE EMINENT is a small, practical and efficient water heater for holiday homes and smaller households. The thermostat can be controlled up to 80°C.

The NIBE EMINENT is available in four different sizes; 35, 55, 100 and 120 litres. The water heater is fitted with a cable and plug for simple single-phase and two-phase connection. The water heater is available in the corrosion-resistant coatings copper, stainless steel and enamel, to suit different water types.

The NIBE EMINENT has minimal heat loss thanks to its efficient insulation. The water heater can be installed vertically on the mounting brackets provided with the connections downwards, or horizontally.

- Practical and efficient water heater for smaller households.

- Several options for output, corrosion-resistant coating and size.

- Can be installed vertically or horizontally.
