

NIBE

Water heater NIBE RSV/RSH

The NIBE RSV/RSH is an efficient water heater in stainless steel, which together with a NIBE air/water heat pump and hydrobox, offers an effective and flexible solution that adapts to your hot water needs.

The NIBE RSH is specially designed for horizontal mounting and can therefore be placed in a space-saving location, such as under the roof boarding, while the NIBE RSV is designed to be installed vertically. The NIBE RSV/RSH comes in a wide range of sizes, from 200 to 400 litres.

When combined with a NIBE heat pump and a hydrobox, the smart technology gives you control over your energy consumption and will be a key part of your connected home.

- **Efficient water heater designed for connection to an air/water heat pump and a hydrobox.**
- **Can be installed vertically or horizontally**
- **Minimal heat loss with polyurethane insulation.**

Specifications NIBE RSV/RSH

Sustainable energy solutions

Since 1952, NIBE has been manufacturing energy-efficient and sustainable climate solutions for your home. It all started in Markaryd in Sweden and we value our Nordic heritage by harnessing the power of nature. We combine renewable energy with smart technology in order to offer effective solutions so that together we can build a more sustainable future.

Whether it's a chilly winter's day or a hot summer's afternoon, we need a well-balanced indoor climate for a comfortable everyday life, whatever the weather. Our wide range of products supplies your home with cooling, heating, ventilation and hot water, so that you can create a pleasant indoor climate with a low impact on nature.

The product's efficiency class.
